

Plan for Robotics Major Students completing AI Engineering Minor

- 1) APS360 (TE)
- 2) CSC263 (one core course overlap),
- 3) ESC499Y thesis on AI topic,
- 4) One of CHE507, CSC300, CSC401, CSC412, CSC413, CSC485, CSC486, HPS255, HPS340, HPS345, HPS346, MIE509, PHL277 or other approved CS/HSS AI elective. (TE or CS/HSS)
- 5) One more from the broad list of electives (includes ECE353, ECE411, ECE431, ECE516, ECE532, AER336, MAT389 from Robotics list of electives or could include a second one of the courses in #4 above). (TE or CS/HSS)

In addition, if you were to take one of below courses they would count toward the minor and you may be able to get them approved as substitute technical elective for the Robotics Major.

- ECE 368H1: Probabilistic Reasoning
- MIE 368H1: Analytics in Action (formerly MIE 465)
- MIE 451H1: Decision Support Systems
- MIE 457H1: Knowledge Modeling & Management
- MIE 566H1: Decision Analysis

*if not completing the thesis, students can choose 3 courses from requirement 4 and 1 from requirement 5
